INTRODUCTION LETTER

With the advance achievement of new technology in the 20th century, COBRA led by its own Owner and Management, continues to discover newer models of varied machines. The ultimate goal of COBRA is to upgrade the industrial manufacturing skills of its Clientele to the high tech level and become a central figure in the industrial stage of the world.

COBRA was established in the year 2000 as a family business establish and manage by the owners and has evolved into a full line company, catering the requirements of a vast clientele and offering an equally vast range of versatile machinery, in its bid to keep pace with the latest technologies. Thanks to the COBRA clients and the high qualified and professional sales and after sales team which brings COBRA to reach to the highest level of Industrial Machinery Trading Company with the biggest showroom and the largest stockiest of very wide range of machines. The diversity of our business activities has helped us to further strengthen our foundation in our sphere of operations and our product range has gone a long way in receiving our client’s patronage.

COBRA is considered to be the pioneer in the field of Aluminum Machinery as all Wood working, Sheet Metal & Steel Fabrication Machineries in the UAE and in the Middle East. We have successfully catered to major sector of the aluminum industry, a fact which has been testified by our clients themselves. Since then, we have never looked back and have forcefully marched ahead in almost all the major industries with our solutions. Today, we find ourselves a real force to reckon with, by making a project division to plan the factories and production line from A-Z. Our endeavor to provide just the right kind of industrial solutions to our clients to help them overcome production difficulties, has taken us a long way in our field of business, where we can always expect the latest and the state-of-art technologies. We offer an incredible range of machinery, Plant & Equipment from all European Countries, Far East, USA & Turkey.

COBRA with the high skilled and very qualified sales and after sales service teams is able to provide its own clients the best solution for their production problems with the latest high tech machines and production lines along with the fastest delivery and after sales service and support.

COBRA is your one stop-shop for all your requirements of Industrial Machinery. We guarantee to accompany you all the time with the most modern and state-of-art technology to ever up-grade your manufacturing facilities. Please do not hesitate to contact us for any further queries and do get in touch with us and we hope to provide you with the best of our services.
OUR PRODUCTS LINE:

- ALUMINIUM DIVISION
- PVC DIVISION
- CLADDING DIVISION
